

“Van Mahotsva” Celebrated by CSFER, Allahabad

To create the awareness regarding the application of Biodrainage species for phytoremediation of water logged sites, “Van Mahotsva” was celebrated by Centre for Social Forestry and Eco rehabilitation, Allahabad, at Village Hema Ka Pura in Jaunpur District on 2nd August, 2013. Species like *Acacia nilotica*, *Terminalia arjuna*, *Syzygium cuminii*, *Eucalyptus sp.* etc have been planted at waterlogged site. Sri Ishwar Chandra Pandey, a progressive farmer of the area with other farmers of the area participated in the plantation programme. In the programme, Dr. Kumud Dubey, Director, CSFER, Allahabad, Dr. Anita Tomar, Scientist, CSFER, Allahabad, Dr. V.P. Pandey, RAI, CSFER, Allahabad and staff of CSFER, Allahabad planted seedlings on the site. At the end of the programme, Dr Kumud Dubey thanked to the farmers for their active participation in the programme.
