

**Visit of FRI by the school children of Chandigarh on
15-05-2012 (09:00 hrs to 4:45hrs)**

Education Tour

A Team of 50 (fifty) students accompanied by two teachers from schools associated with Eco-club in Chandigarh UT visited FRI Museums and Photogallery on 15th May, 2012. More than 50% students were girl children. Shri Amit Asthana, Head, Engineering Cell interacted with the Coordinator, Eco-clubs, and students on environmental issues, specially on issues of Global warming and its effects on human health. The students were shown a documentary of FRI and then the six museums. They were also given the exposure to various activities of Chemistry laboratory (Chemistry Division). Thereafter a visit to Photogallery at Shatabdi van Vigyan Kendra was also arranged to give them know-how about Forestry in India.

The teachers (Coordinators of Eco-Clubs) and students were very satisfied about the information they received in one day at FRI and wished to have some more visits of such kind.

*This study tour was organized in collaboration with
Department of Science and Technology - Chandigarh
Administration*
