

Visit of a team of NMPB, New Delhi at Field Research Station (FRS) Brundhar, Manali (H.P)

During a visit to Himachal Pradesh, a team consisting of 20 officers and staff members of NMPB, New Delhi, headed by Dr. Sanjiv Kumar, Assistant Director (Ay.) and Sh. Akif Iqbal Alvi, Marketing Assistant, visited Himalayan Forest Research Institute's Field Research Station situated at Brundhar, Jagatsukh near Manali (H.P.) on 16th August, 2014.

On behalf of Director, HFRI, Shimla, Sh. Jagdish Singh, Scientist-E, Head NWFP Division formally welcomed the officers and staff members of NMPB, New Delhi during their maiden visit to field research station. The team was shown various high hill temperate medicinal plants along with their medicinal uses. They were also briefed about the various activities being undertaken at FRS, Brundhar as funded by NMPB, New Delhi. The participants were quite eager to know more about the temperate medicinal plants. A detailed discussion was held with participants and all queries were satisfactorily replied. A team leader Dr. Sanjive kumar and other senior officers appreciated the sincere efforts of the Institute in development of medicinal plants sector. In the end officers and staff members of NMPB, New Delhi thanked Director, HFRI for well coordinating the tour programme and scientist and field staff for sparing their valuable time and making them aware about with various high valued temperate medicinal plants.
