

Training on Field Identification of Important Timbers for RFOs of Karnataka State Forest Department at Institute of Wood Science & Technology, Bangalore (January 28 - February 1, 2013)

The Wood Properties and Uses (WPU) division of this Institute has organized 5 days training for 15 Range Forest Officers (RFOs) of various forest divisions of Karnataka during January 28-February 1, 2013. The training included lectures as well as hand-on-sessions on methods of identification of about 25 important wood species that are predominantly grown in forest areas of Karnataka and surrounding states and being traded heavily.
