

Establishment of Plant Tissue Culture Laboratory at ARCBR

The Plant Tissue Culture Laboratory established at ARCBR, Aizawl with the collaboration of State Forest Department of Mizoram was made operational w.e.f. 6th August, 2012. The laboratory will be utilized for developing micropropagation protocol along with mass propagation of important forest tree species including Bamboo and Rattan. In this context, training cum workshop was conducted at ARCBR, Aizwal from 6th to 11th August, 2012 to train scientific staff of ARCBR with plant tissue culture techniques.

Sri Satyam Bordoloi, Scientist-B and Sri Pronob Bhushan Goswami, RA-II of RFRI, Jorhat participated in the programme as resource person. Sri Bibhuti Deka, RO and Sri Hanshraj Sharma, Scientist-B of ARCBR attended the programme and acquainted with the basic micropropagation techniques. Ms. Imtiena Ao, Director, ARCBR extended all necessary help to make the programme successful.
