

Training of Field Functionaries from Karbi Anglong District

RFRI, Jorhat conducted a three-day training programme for the Field Functionaries of Karbi Anglong District of Assam under National Bamboo Mission. There were 28 numbers of young, energetic forestry personnel participated in the training programme.

Sri R. K. Kalita, Head, Forestry Extension Division and Training Coordinator of RFRI welcomed all the trainees and their officer in-charge. He briefed the training about RFRI and its R& D activities.

Dr. T. C. Bhuyan, Research Officer started the training programme with a detail presentation about bamboo and their propagation methods. He also delivered an exhaustive presentation on commercial cultivation and product diversification of bamboo.

Dr. P. K. Verma, Research Officer gave the trainees an in-depth exposure on vermicomposting technology.

Sri R. K. Kalita delivered detail presentation on disease and insect problems of bamboo and their management.

The trainees visited RFRI bamboo nursery, bambusetum and bamboo composite centre. Sri Kumud Bora and Sri Debojit Neog demonstrated the various propagation methods and nursery techniques of bamboo. While visiting the RFRI bambusetum, the trainees were explained about various identifying characters of different species of bamboo. RFRI bambusetum houses 41 species of bamboo collected from various parts of India and abroad.
