

## Exposure Visit of Students to RFRI, Jorhat | 2015

### Exposure visit of B. Sc (Botany) students from Moran College, Sivasagar (Assam)

A group of fifty B. Sc. (Botany) students from Moran College, Sivasagar (Assam) paid an exposure visit to Rain Forest Research Institute, Jorhat (Assam) on 30<sup>th</sup> September, 2015 along with their teachers. The students were guided by Dr. Prosanta Hazarika, Dr. Papori Borpuzari, Sri Prasanta Saikia and Sri P. B. Goswami.

The students visited the Tissue Culture laboratory of the Institute and interacted with concerned scientist/researchers on various aspects of tissue culture. The students were briefed about different research and developmental activities of the Institute. They visited RFRI bambusetum and bamboo nursery. They expressed their happiness on seeing 41 (forty one) species of bamboo in a small piece of land. They also visited RFRI Bamboo Composite Center and saw the different bamboo products and also gained knowledge on bamboo value addition.
