

FIELD DISEASE IDENTIFICATION

INSTITUTE OF FOREST BIODIVERSITY (IFB), HYDERABAD

February 1st, 2022

A Report on Field Disease Identification organized under Azadi Ka Amrit Mahotsav

The Institute of Forest Biodiversity, Hyderabad organized a Lecture on World Wetlands Day on 05th January 2022 under Azadi Ka Amrit Mahotsav through virtual mode.

From Institute of Forest Biodiversity, Hyderabad, Shri. Kavi Sidharthan, Sc-B and shri. E. Manikanta Reddy, Technician visited Karthikavanam, Dulapally, to expose the FRO trainees (08th Batch) about the Symptoms of the plants infected/infested with pathogens/pests like Leaf gall, Leaf blight, Sooty mould, and Powdery Mildew Disease etc. The species on which the symptoms were observed during the visit are *Ficus racemosa*, *Pterocarpus santalinus*, *Dalbergia latifolia*, *Ficus mollis*, *Ficus beghalensis*, *Ficus religiosa*, *Tamarindus indica* etc.

The trainees were also informed about the management practices for identified disease and tips for identification of disease symptoms etc.

Below are few photographs of the event
