विशेषज्ञ की राय

हर साल लाखों की संख्या में पौधरोपण हो रहा है। पौधे सुरक्षित रहे तो हरियाली बिखेरेंगे और छाया देंगे। लेकिन कहीं भी कोई पौधा लगा देना ठीक नहीं है। पौधों के चयन पर ध्यान देना होगा। पौधे वो लगें जो हरियाली और छाया के साथ लोगों को अन्य फायदे भी पहुंचाएं। पौधरोपण के बाद नियमित देखभाल होनी चाहिए।
डॉ. संजय सिंह, प्रमुख पारि-पुर्नस्थापन वन अनुसंधान केंद्र, प्रयागराज
