Biodiversity Conservation and Environment Awareness Programme

03 November, 2022

Team of Scientists along with staff visited Govt. Higher Secondary School, Gangiwara, Chhindwara District (MP) on 3.11.2022 and conducted a session on 'Biodiversity Conservation and Environmental Awareness' for the students of class 11th and 12th standards. Dr. Vishakha Kumbhare, Scientist –E delivered a lecture on economically important NTFPs species, their botanical names, industrial uses etc.. Sh. N.D. Khobragade, Scientist–D informed about methods of raising plants in nursery, how to select quality plants from field etc. Smt. Mamta Meshram, Scientist-C talked about agroforestry systems and their importance in generating additional income etc. Feedback was obtained from 2 - 3 students and found the session was very educative for the students. All students were very much attentive and sincerely learnt and received all the information disseminated to them.
