

Exposure visit of women Forest Guards

A group of 50 women Forest Guards from Environment and Forest Department, Government of Bihar obtaining their training in Balaghat Ranger college, Balaghat Madhya Pradesh visited Tropical Forest Research Institute, Jabalpur on an exposure visit. Dr. Nitin Kulkarni, Director, TFRI interacted with the group and informed that institute is working for the expansion of forest through improved clones released by the ICFRE. They were also informed about the five clones of Poplar, released specially for Bihar region by the sister institute, IFP, Ranchi, and that these can be promoted for planting in farmer's field as agroforestry. Dr. Nanita Berry, Head, Forest Extension Division informed about the benefits of Agroforestry models and showed different activities displayed in the Interpretation Centre cum Museum including visit to Bambusetum and Insectary.

Glimpses of the Visit
