

**Five days Certificate training programme
on
"Propagation and Nursery Management of Bamboos"
at
Genetics and Tree Improvement Division,
ICFRE-Tropical Forest Research Institute, Jabalpur**

Training on **Propagation and Nursery Management of Bamboos** is being organized by **Genetics and Tree Improvement Division, Tropical Forest Research Institute**, from **20th February – 24th February 2023**. This training is being conducted with the objective to impart knowledge on different techniques of propagation of bamboos and management of bamboo in nursery. The training program was inaugurated on 20th February 2023 by lighting the lamp by the training coordinator, Dr. Fatima Shirin, other dignitaries and participants.

Dr. Fatima Shirin, Scientist-G and Training Coordinator welcomed all the participants and briefed them about the importance of bamboos, their propagation and various initiatives of Government. **Total 12 participants from Maharashtra and Madhya Pradesh are participating in this training. Dr. Nanita Berry, Dr. Naseer Mohammad, Dr. Pramod Kumar**, along with other members of the institute were present to support the inaugural session. Inaugural programme was hosted by **Dr. Kaushal Tripathi**. The training on '**Propagation and Nursery Management of Bamboos**' will give a better understanding for theoretical and practical aspects of propagation and nursery management of bamboos. The hands on practicals and demonstrations during the training program will help the participants to become skilled in macropropagation and micropropagation of bamboos.

Glimpses of the Inaugural Session
