

Training on Instrumentation concluded at TFRI, Jabalpur

A five days training course “**Training on Instrumentation**” inaugurated by **Smt. Neelu Singh, Director TFRI** on 30th January, 2023, was concluded on 03rd February, 2023 at Tropical Forest Research Institute, Jabalpur. Certificates were distributed to the participants by **Dr. Avinash Jain, Head of Forest Ecology & Climate Change Division of the Institute** during the valedictory session. Participants from West Bengal, Uttarakhand, Madhya Pradesh, Maharashtra, and Odisha attended the training course.

Dr. Hari Om Saxena, Scientist-E & Training Co-ordinator briefed the five days training report. During the training, lectures on a wide range of instrumentation such as HPLC, HPTLC, ICP – OES, PCR, Gel Electrophoresis, UV-Vis Spectrophotometer, instruments for soil & vegetation analysis, instruments for patho-entomological studies and other important instruments used in research were delivered by various distinguished scientists and invited resource persons. Hands on/ practical demonstrations were given to the learners by expert technical team of TFRI. Exposure visits to the Plant tissue culture laboratory, Insectary and Museum were also provided to the participants.

During the feedback session the training participants praised and appreciated TFRI for organizing such a nice and diversified training course on instruments which will help the learners, especially the young budding research scholars in their research works.

Dr. Avinash Jain, the chief guest of the session, appreciated the efforts of Training Coordinator & the team for successfully organizing the training and all resource persons to enrich the participants with advanced instrumental techniques. He said that this is the era of instruments and knowledge of advanced instruments now a days are very essential for performing the high-quality research. He wished the participants well in all their future endeavors.

The programme ended with vote of thanks by **Dr. Hari Om Saxena, Training Coordinator**. The programme was successfully conducted by Ms. Samiksha Parihar, JPF. During the session, the scientists, and staff of TFRI were present.
