

**Report on Valedictory programme of five days certificate training program
on “Propagation and Nursery Management of bamboos”
from 20th February to 24th February 2023**

A five days certificate training program on “Propagation and Nursery Management of Bamboos” was successfully completed by Genetics and Tree Improvement Division, Tropical Forest Research Institute, from 20th February to 24th February 2023. The valedictory programme of the training was organized on 24th February 2023 in Conference Hall of Genetics building TFRI, Jabalpur. Dr. Fatima Shirin, Training Coordinator briefed about lectures, hand-on practicals and field visits to various plantation sites during the five days. One day Nursery visit to Green Bamboo Nursery was carried out on 23rd February 2023, during which the trainees interacted with Bamboo Nursery Entrepreneur Shri Shubhas Bhatia. Total twelve bamboo entrepreneurs, bamboo farmers and students from Maharashtra and Madhya Pradesh participated in the training. During the training, in-depth information was provided for both theoretical and practical aspects of propagation of bamboo through macropropagation and micropropagation techniques and bamboo nursery management. Participants shared their feedback on training programme. Mr. Prashant Date, Bamboo Entrepreneur, shared his experience during training and expressed his gratitude for organization of training and providing detailed knowledge related to bamboo propagation. Mr. Umesh Sonar and Mr. Sandip Mali, Bamboo Farmers, showed their interest in development of bamboo nursery and cultivation of bamboo. Certificates and mementos were distributed by Dr. Fatima Shirin, Training Coordinator, Dr. Naseer Mohd., Scientist E and Dr. Pramod Kumar, Scientist D to all the participants. Lastly, Training Coordinator expressed thanks to the Scientists, supporting staff and research scholars of Genetics and Tree Improvement Division for all their help and support for successful completion of the training program.
