

Exposure visit of students (27/02/2023)

Group of 60 students of Royal Heritage School, Jabalpur visited ICFRE - Tropical Forest Research Institute on 27th February 2023. Dr. Nitin Kulkarni, Director, TFRI interacted with the group and motivated students on various issues related to environment and forestry. Dr. Nanita Berry, Head, Forest Extension Division described the role of trees and forests in mitigating pollution and reclaiming degraded land, thereby increasing productivity through advanced Silviculture practices and its management. The students visited the Museum cum Interpretation centre, Seedling seed orchard, Insectary and Botanical Garden of TFRI.

Glimpses of the Visit
