

## ICFRE-Forest Research Institute, Dehradun

### Regional Research Conference on "Ecological Restoration of Degraded Lands" [28<sup>th</sup> August, 2023]

ICFRE-FRI in collaboration with Himalayan Forest Research Institute organized Regional Research Conference on 28 August, 2023. The theme of the conference was "Ecological Restoration of Degraded Lands". The keynote address was given by Dr Jagdish Chandra, Head of Forest Force & PCCF Haryana.

Director FRI, Senior Forest officials and Scientists of ICFRE Institutes participated in the conference. Multiple ideas, challenges and best practices relating to the ecological restoration and reclamation of degraded land were put to discussion. The officials and scientists from different institutions presented their work based on this theme. They vowed to put in efforts to make further breakthroughs in the ongoing research on the ecological restoration of lands. As the land restoration target of India is 26 million hectares by 2030 the RRC 2023 becomes a vital platform to showcase the research being carried out and milestones achieved for the cause.
