(A unit of I.C.F.R.E.-R.F.R.I., Jorhat, Assam)

संक्षिप्त विवरण

आयोजन का नाम	प्रकृति (वैज्ञानिक-छात्र संपर्क पहल) के अंतर्गत पर्यावरण जागरूकता कार्यक्रम
तिथि	16.02.2026
अवधि	1 दिन
कार्यक्रम का स्थान	भा.वा.अ.शि.प.-ब.बें.कें., आइजोल, मिजोरम
प्रतिभागियों की संख्या	200
भाग लेने वाली संस्था	पी एम श्री केंद्रीय विद्यालय, आइजोल के प्राथमिक कक्षाओं के छात्र और शिक्षक
आयोजन करने वाली संस्था	भा.वा.अ.शि.प. – बांस एवं बेंत केंद्र, बेथलहम वेंगथलांग, आइजोल, मिजोरम
अनुदान देने वाली संस्था	भारतीय वानिकी अनुसंधान एवं शिक्षा परिषद (भा.वा.अ.शि.प.), देहरादून (कैम्पा विस्तार के अंतर्गत)

विस्तृत विवरण

भा.वा.अ.शि.प. – बांस एवं बेंत केंद्र ने 16 फरवरी, 2026 को अपने परिसर में प्रकृति (वैज्ञानिक-छात्र संपर्क पहल) के अंतर्गत एक पर्यावरण जागरूकता कार्यक्रम का सफलतापूर्वक आयोजन किया। **पीएम श्री केंद्रीय विद्यालय, आइजोल के प्राथमिक कक्षाओं के लगभग 200 छात्र** अपने शिक्षकों **श्री योगेश शर्मा, सुश्री शीतल, श्री प्रत्युष, श्रीमती अनु, श्री एमसी ज़िरानसांगज़ेला और श्री आनंद के साथ केंद्र में आए थे।**

छात्रों को जलवायु परिवर्तन, प्लास्टिक प्रदूषण और वन संरक्षण जैसे प्रमुख पर्यावरणीय मुद्दों पर ज्ञानवर्धक वृत्तचित्र दिखाए गए, जिसके बाद उनकी जानकारी को सुदृढ़ करने के लिए एक मजेदार प्रश्नोत्तरी सत्र आयोजित किया गया। प्रश्नोत्तरी में छात्रों ने उत्साहपूर्वक भाग लिया और चर्चा किए गए विषयों में गहरी रुचि दिखाई। विजेताओं को पुरस्कार दिए गए।

भा.वा.अ.शि.प. – बांस एवं बेंत केंद्र के वैज्ञानिकों ने उन्हें बांस और रतन संग्रहालय, बांस मार्ग और नर्सरी जैसी केंद्र की सुविधाओं का भ्रमण भी कराया।

Kendriya Vidyalaya Students Explore Bamboo and Climate Science at ICFRE-BRC

Staff Reporter

Aizawl, Feb 17: In a bid to nurture environmental awareness among young learners, around 180 students of Classes IV and V from Kendriya Vidyalaya Aizawl visited the ICFRE-Bamboo and Rattan Centre (BRC) at Bethlehem Vengthlang on Monday under the "Prakriti" Scientist-Student Connect Initiative.

The outreach programme, aimed at bridging the gap between scientific research and school education, sought to introduce students to pressing environmental challenges through interactive and experiential learning.

The event began with a welcome address by Shri Sandeep, Scientist-D and Head of ICFRE-BRC, who outlined the objectives of the initiative. Speaking to the young participants, he stressed the responsibility of the younger generation in safeguarding the environment and highlighted the importance of informed action in the face of global eco-

logical concerns.

During the session, students were introduced to key environmental issues such as climate change, plastic pollution and forest conservation. Resource persons explained how climate change affects both local and global ecosystems, the harmful impact of single-use plastics, and the critical role forests play in maintaining ecological balance.

To ensure the concepts were accessible and engaging, the Centre organised a series of interactive activities. Students viewed specially curated documentary clips focusing on biodiversity and conservation efforts, followed by a lively quiz session designed to reinforce their learning. The quiz drew enthusiastic participation, with students demonstrating keen interest in the subjects discussed.

One of the highlights of the visit was a guided walk along the "Bamboo Trail" within the BRC campus. The trail offered students an op-

portunity to observe various bamboo species up close and learn about their ecological and economic significance. Scientists at the Centre explained how bamboo contributes to soil conservation, carbon sequestration and sustainable livelihoods, particularly in the Northeast.

Teachers accompanying the students expressed appreciation for the initiative, noting that the hands-on exposure complemented classroom teaching and helped translate textbook concepts into real-world understanding. They described the visit as a meaningful out-of-classroom experience that sparked curiosity and deepened the students' understanding of environmental science.

The programme concluded on an upbeat note, with organisers reiterating their commitment to continuing such engagements to inspire young minds and cultivate a culture of environmental stewardship.

Brief Summary

Name of Event	Environmental Awareness Programme under PRAKRITI (Scientist- Student Connect Initiative)
Date(s)	16.02.2026
Duration	01 Day
Venue	ICFRE-BRC, Aizawl, Mizoram
No. of Participants	200
Participating Agency(s)	Students of Primary classes and Teachers of PM Shri Kendriya Vidyalaya, Aizawl
Organizing Agency(s)	ICFRE-Bamboo & Rattan Centre, Bethlehem Vengthlang, Aizawl, Mizoram
Funding Agency(s)	Indian Council of Forestry Research & Education (ICFRE), Dehradun (under CAMPA Extension)

Detailed Description

The **ICFRE- Bamboo and Rattan Centre**, successfully conducted an Environmental Awareness Programme as part of its PRAKRITI (Scientist-Student Connect Initiative) at its premises on **16 February, 2026**. **Around 200 students of Primary classes accompanied by the teachers namely: Mr. Yogesh Sharma, Miss Sheetal, Mr. Pratyush, Mrs. Annu, Mr. MC Ziransangzela and Mr. Anand from PM Shri Kendriya Vidyalaya, Aizawl** had visited the Centre.

The students were shown insightful documentaries on key environmental issues such as climate change, plastic pollution and forest conservation, followed by a lively quiz session designed to reinforce their learning. The quiz drew enthusiastic participation, with students demonstrating keen interest in the subjects discussed. Prizes were awarded to the winners.

They were also guided around the facilities of the Centre like Bamboo and Rattan Museum, the Bamboo trail and the nursery, by the Scientists of ICFRE- Bamboo and Rattan Centre.
