**Terms of Reference**

**(Policy cum Knowledge Management Consultant)**

**1. Background**

The Government of India has received financing from the World Bank toward the cost of the Ecosystem Services Improvement Project. Indian Council of Forestry Research and Education (ICFRE) is one of the implementing partners of ‘Ecosystem Services Improvement Project (ESIP)’ and may implement one of the components of ESIP, *i.e.*, Scaling up Sustainable Land and Ecosystem Management (SLEM) in Selected Landscapes. The main objectives of this component are to prevent land degradation and desertification and increase above-ground forest carbon stock through a combination of investments to implement and scale-up tried-and-tested SLEM best practices, to increase national capacity for monitoring land degradation and track associated indicators, and to generate knowledge exchange on SLEM approaches. The goal is to benefit small and marginal farmers and other rural poor and to develop a national knowledge platform for supporting a community of practice on SLEM. These activities are designed to overcome the twin challenges of arresting land degradation and meeting food security targets. This component will finance on-the-ground sustainable land management investments in private land holdings and common property lands and enhance knowledge and capacity for further scaling up of SLEM approaches at the national level. It will draw heavily from the best practices and approaches that were tried and successfully developed under SLEM project. This component can help increase national capacity for monitoring the status of land degradation and desertification and SLEM outcomes, as well as the results of UNCCD action programmes at the country level.

**2. Objective(s) of Assignment**

- i. To ensure that the program outputs contribute to strengthening the policy foundations for scaling-up of integrated SLEM approaches for reducing land degradation and desertification.
- ii. Ensure development of knowledge products related to scaling-up of SLEM approaches.
- iii. Develop strategies for scaling-up of integrated SLEM approaches for reducing land degradation and desertification
- iv. Building national capacity for land degradation and desertification monitoring, and implementation of a national knowledge network.
